Another Synagogue shooting (By Hispanic male). This time Jews who are enemies of America and running White genocide got shot in San Diego. America needs to issue arms to all White people to make it easier for us to destroy our domestic enemy.

The enemy Jews win the political game because they control our governments but attack them, destroy their degenerate tools for White genocide, and burn down every Synagogue and every trace of Jewish presence in your nation and you will be free.

If HIAS, the perverse Jewish terror organization which helps flood America with endless hordes of non-White third-worlders to destroy White Christian America, and was attacked by good fellow Robert Bowers, was attacked again, and every murderous Jew inside was killed and the building was burnt to the ground to purify it from enemy Jewish filth, it would be an act of Patriotism, in service to a once great nation which will once again become great after our Jewish enemies are dead or in labor camps.
